70th Annual Meeting

This last Saturday marked the 70th annual meeting of the WF&P Association. We met at Pietro's again and again the food was excellent. I especially like the Chicken Pietro.

The usual business was conducted at the meeting and new officers were selected. Re-elected were Steve Marx as president, Joe Christen, Wayne Mosbacher to the board. Newly elected to the board was Tom White. Congratulations to all of them.

Tom White giving the motive power report.

Also shown for the first time was one of our new side frames. The pattern was made by Joe Aherns and we have had about 50 of them cast.

Joe Aherns describing the process to make a pattern for the side frames

Among the reports given were the troling stock report by Jim Scott. His report included information on the 240 car enhancements, and the 51 caboose upgrade that just needs lettering to be complete.

51

Reports also included information on the new radio system, plans to complete

the wall at Summit and updates on the extension progress.

Missing this year was Don Miller. I have no work on why he didn't make it this year. Here was Joe Geders making a stop on his way to the Vatican. Good luck to Joe.

Above are pictures of some of the people who attended this year. We hope all of you had a great time and a good lunch.

Here is the pattern for the new side frames.
